

SCHISSLER
CERTIFIED PAYMENTS CONSULTANTS

Merchant Services

Who We Are and What We Do

We are local and make it possible for your business to accept all non-cash forms of payment so you can grow, offer convenience and reduce accounts receivable.

Our mission is to make easy what others complicate with nuisance fees and jargon. We have transparent pricing, honest salespeople, and a proven track record of success both locally and nationally. The bottom line is we are accountable and will do what we promise.

How We Do It

If your business already accepts credit cards, debit cards, or e-checks, we will provide a free detail cost comparison that will show exactly what you will save using us. We will explain all of the rates and fees in an easy to understand way and we will make sure you pay the lowest possible amount. We offer state-of-the-art PCI compliant processing machines, virtual terminals, chip-card solutions, and mobile swipers.

Advantages to Your Business:

- Only ETA Certified Payments Professional in Jackson County
